

# □ SIMPLY. RAPID. ASSEMBLED.

The innovative folding tent  
from HTS TENTIQ

## We create space for great things

The innovative folding tent from HTS TENTIQ can be set up and taken down in just a few minutes. Only three people and a few simple steps are needed! In addition to its effortless assembly, the newest folding tent impresses with its extremely low transport volume, which is achieved through the intelligent frame folding technology.

## Structure

The frame consists of specially manufactured connecting elements made from CNC-milled and anodized aluminum components. The roof structure is the main component of the tent. It can be extended both lengthwise and widthwise. The corresponding posts simply need to be inserted into the eave connectors and connected to each other.

## Tarpaulin

The tarpaulin is mounted on the inside of the frame structure using a rope system with intelligent transmission, offering you reliable protection for every situation.

## Technical data

	Small	Medium	Large
<b>Width</b>	6.00 m	6.00 m	6.00 m
<b>Length</b>	6.00 m	9.00 m	12.00 m
